HTML Divs and Attributes

HTML and CSS Development Lab - Lab 04

Task 1: Create and Use Div Elements

About HTML

HTML stands for HyperText Markup Language. It is used to create the structure of web pages.

About CSS

CSS stands for Cascading Style Sheets. It is used to style and design web pages.

Task 2: Use HTML Attributes

Student Information

Name: Anurag Kumar

Course: B.Tech CSE(Lateral-Entry)

University: Invertis University-Bareilly

Visit Invertis University

Task 3: Identify and Fix HTML Errors

Corrected HTML Code

This paragraph tag is correctly opened and closed.

HTML Heading

All HTML elements are properly structured.

Common Errors Fixed

- Missing closing tags
- Incorrectly nested HTML elements
- Missing quotation marks in attributes
- Missing alt attribute in images

Conclusion

In this practical, I learned how to create div elements, use HTML attributes and identify and fix common HTML errors.
